LONGEST LASTING CARCASS

No material displacement during the manufacturing and curing process means:

- Track compound types located exactly where you need it
- Uniform tension distribution, eliminating downtime due to carcass tear

THE RESULT: A FINISHED PRODUCT WITH INCREASED DURABILITY AND PERFORMANCE.

CAMSO TRACKS TREAD LIFE COMPARISON

CAMSO AG 6500

2.8" (71 mm) CAMSO AG 6500 TREADBAR VS 2.75" (70 mm) COMPETITION TREADBAR

Delivers longer tread life.

CAMSO TRACKS HAVE BETTER TREAD WEAR PROPERTIES WHICH CONTRIBUTE TO LOWER THE COST PER HOUR BY AT LEAST 15%.
Unmatched industry-proven performance, durability and reliability. Drive lugs engineered with patented internal reinforcement technology for the most demanding applications such as scraper, ripper and heavy tillage. It will last you at least an extra season of work and will outperform any other track on the market. Best track life available, reducing cost per hour by an average of 30%.

SCRAPER, RIPPER, HEAVY TILLAGE AND ROWCROP | 1000+ ANNUAL HOUR USAGE

The industry standard track made to last. When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price. This is the OEM-approved choice.

GENERAL TILLAGE AND ROWCROP | 500-1000 ANNUAL HOUR USAGE

Built to withstand the toughest commercial or agricultural scraper conditions with maximum service life. Duradrive internal fabric reinforcement design exclusively on 6500 positive drive tracks.

SCRAPER 6500

When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price. This is the OEM-approved choice.

SCRAPER 6500
When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price. This is the OEM-approved choice.

**Performance**
- Durability
- Traction
- Flotation

**Unmatched industry-proven performance, durability and reliability**

Drive lugs engineered with patented internal reinforcement technology for the most demanding applications such as scraper, ripper and heavy tillage. It will last you at least an extra season of work and will outperform any other track on the market. Best track life available, reducing cost per hour by an average of 30%.

**Versatile tread bar**
- Provides optimal traction and ride quality
  - Balance between traction, cleanout and flotation

**Longest lasting carcass**
- No material displacement during the manufacturing and curing process means:
  - Track compound types located exactly where you need it
  - Uniform tension distribution, eliminating downtime due to carcass tear

**High-grade rubber compounds**
- Maximizes performance and durability
  - Specifically engineered compounds for treads, carcass and guide lugs

**Optimized drive lugs**
- Allows for maximum power transfer
  - Drive lug geometry designed specifically for 9RX sprocket

**Patented with unique internal reinforcement adds an extra season of work**

The industry standard track made to last

When it comes to general AG applications, the Camso AG 3500 will provide good balance between reliability, quality and price. This is the OEM-approved choice.
